REMARKS

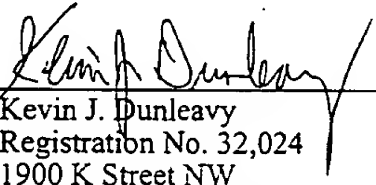

Applicants believe that the original patent, U.S. Patent No. 5,726,450, granted March 10, 1998, is wholly or partly inoperative or invalid by reason of the patentees claiming more or less than they had the right to claim in the patent. At least one error upon which this reissue application is based is the unnecessary limitation of "unmanned" which was included in claims 1-12 and 14-21. Other errors exist and are corrected by this amendment. Every error corrected in this reissue application, including all errors corrected in this amendment, arose without any deceptive intention on the part of the applicants.

CONCLUSION

Prompt examination and favorable action are hereby respectfully requested. Should the examiner believe that an interview, either personal or by telephone, would expedite prosecution of this reissue application, the undersigned would welcome such an opportunity.

Respectfully submitted,

HUNTON & WILLIAMS
